Re: Conclusion of ERC Investigation

The purpose of this memo is to confirm the response, which I shared with you on May 10, 2024, regarding the concerns that were raised by you about your previous manager and Senior Director. Adobe takes seriously all concerns raised to the company and is committed to ensuring that every complaint is reviewed and/or investigated as appropriate.

Based on the information provided to me, I conducted a thorough investigation into your concerns and find the following:

With respect to the concerns raised that you felt your previous manager and Senior Director provided you performance feedback as retaliation because you shared feedback to your HR Business Partner about your onboarding experience and leadership; evidence showed that your Senior Director and direct manager were unaware of the feedback that you presented to your HR Business Partner. Therefore, I did not substantiate this concern. With respect to your concern that your Sr. Director suggested you find another role if you cannot work under your manager because you previously shared feedback about your manager, the evidence showed that your Senior Director was attempting to provide you with the option to find another role in the event you were not aligned with working under your manager. I did not find evidence that your Senior Director acted inappropriately. Therefore, I was unable to substantiate this concern.

With respect to the concern raised that the performance feedback you received from your manager created a hostile work environment and that your manager engaged in bullying behavior; evidence showed that you were receiving timely feedback based on legitimate business rationale. There was no evidence to suggest that your manager acted inappropriately. Adobe expects its managers to provide timely feedback where necessary; therefore, I was unable to substantiate this concern.

With respect to the concern raised that your Senior Director acted unprofessionally by raising his voice; there was not sufficient evidence to show that they raised their voice or otherwise acted unprofessionally. Therefore, I was unable to substantiate this concern.

With respect to the concerns raised that you felt the Annual Incentive Payment (AIP) awarded to you was unfair; evidence showed that your award was based on legitimate business rationale, specifically, inconsistent performance that you had been receiving ongoing performance feedback for. I found there to be an opportunity for better alignment in communicating the justification to

Adobe

you and Adobe has taken appropriate action to address this. However, I was unable to substantiate that the AIP awarded was unfair.

I appreciate your patience while I looked into the concerns you raised. Adobe prohibits retaliation against any person for reporting a suspected concern or policy violation that they honestly, reasonably believe to be true. Please review [Adobe's Non-Retaliation Policy](#). If you have any questions about the investigation or Adobe's policies, please contact me immediately.

If you have any questions about the investigation or anything that may be related to this investigation, please contact me immediately.

This memo is for your record and will not be placed in your personnel file.
